RANDALL

Randall Bearings is the largest producer of machined bronze & brass parts in the country. Our core business is supplying OEM components to the largest **Oil and Gas, Transportation, Mining and Fluid Control** industries in the world. Randall Bearings is prepared to develop a supplier partnership with organizations that require a very established **Supplier Performance Expectation**.

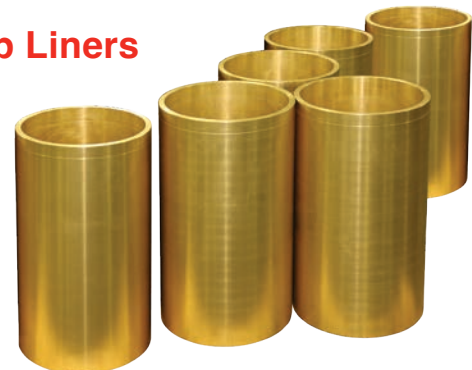

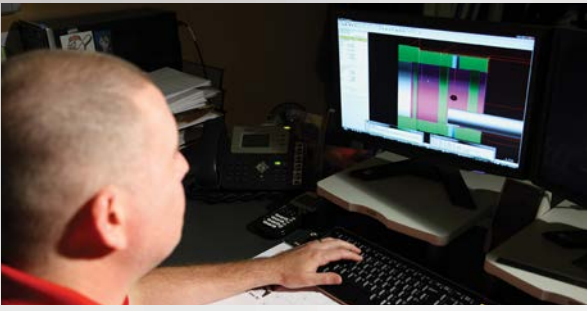

Production Control Plan

Each job is unique and preplanned to ensure all customer expectations are achieved. Randall's **Production Control Plan** establishes a process that promotes a dependable, repeatable, and most important, an on-time result.

Frac Pump Liners

Efficient Quoting Process

Our **Qualified Quoting Team** creates a computer generated machining simulation that replicates the most effective and efficient machining sequence and cycle time. Our customers are assured of the most competitive and reliable customer pricing.

Quality Control Standards

Whether it's our largest customer or our smallest, Randall's **Quality Control Standards** are the same. Randall has developed a documented Quality Management Plan that virtually negates any unnecessary rework, waste, cost and time. We do not compromise any measure of our customer's quality expectations.

Inventory Management

Randall has been very successful in developing and maintaining a loyal customer base ... and it's more than our ability to excel at **"quality, pricing and delivery."** We can establish an inventory management relationship that reduces your lead time from several weeks to a few days.

Valve and Fluid End Accessories

Wrist Pin Bushings and Connecting Rod Bushings

Stuffing Box, Throat Bushing, Adapter Rings and Spacers

Randall Bearings is committed to growing with our Customers. Excellence in technology, production, quality control, & customer support ensures that Randall Bearings will be a leader in the machined bronze & brass industry for decades to come. Our Customer Support Team is looking forward to your inquiries.

Feel free to contact one of our friendly Customer Support Representatives here at Randall Bearings by calling **419.223.1075** or email **sales@randallbearings.com**.
